PROTECTIVE[®] EXECUTIVE UL

Protective refers to Protective Life Insurance Company and Protective Life and Annuity Insurance Company.
For Financial Professional Use Only. Not for Use With Consumers.

You can expand your business into a new market with a category of life insurance you use every day—universal life.

With a universal life insurance solution, designed for group term carve-out plans, you can win additional growth opportunities in the executive benefits market.

We created Protective® Executive UL to help you do just that. Leverage our solution's familiar UL design to provide organizations an additional benefit for their key employees.

What is a group term carve-out plan?

A group term carve-out plan (GTCO) is a special life insurance program designed to reward highly-compensated employees with an additional benefit beyond what may be available through an organization's regular group term life insurance benefit plan. The employer makes the decision to provide a GTCO, and to pay 100% of the premium for this distinct set of employees.

An executive benefits strategy you already know

Protective Executive UL enables you to offer organizations the valuable incentive of life insurance coverage tailored to their executive-level employees. There are plenty of solutions available to employers, the challenge is finding the ones that are cost-effective and easy to administer. This solution delivers the value employers need.

A solution that delivers value to the employer and their executive employees

To ensure an organization's success, attracting and retaining the best leadership talent is critical. Protective Executive UL is a solution that benefits both the employer and their executive employees.

 <p>Employer-valued features</p>	Minimum premium maximum advantage	Premium guarantees	Guaranteed-issue type underwriting
	Only minimum premiums are needed from the employer; however, the employee may add additional premiums to build cash value.	The schedule of minimum premiums for each insured is guaranteed for five years.	No medical exam, and no bloodwork involved. Executives can qualify by answering two key questions.
	Tailored coverage	Portable coverage	Easy to administer
	Coverage is specifically designed for your executives, which allows it to be a more practical plan than if they were included in a traditional group plan with all other employees.	Unlike group life insurance, individual coverage doesn't go away or decrease at retirement. It's portable—so employees can take it with them if they retire or decide to leave the company.	Employee information is managed with a census, updated as needed, and the premiums can be paid with a single electronic fund transfer.

A streamlined program for application and premium processing

After you identify the right prospective organizations, Protective will work closely with you through the application submission, ongoing administration and premium processing. The process is as follows:

The agent identifies a prospective employer and completes initial documentation.

Prospective employers are identified by the agent, who then works with them to complete the census template and other necessary information including:

- Distinct class(es) of employees eligible to participate in the plan are defined. (no voluntary aspect)
- Death benefit amounts are determined for the class(es) of employees, which can be the same for all in the class, a multiple of their salary or a combination of both.
- All columns of the census template must be filled in to obtain a formal offer.

The agent then submits the completed census template and required application to Protective.

Protective reviews the request.

Protective will determine if additional information is needed. Further discussion with the producer may be requested.

Protective determines an offer.

If approved, a customized written offer will be provided stating a summary of the case, maximum face amounts available and any required stipulations. An offer will be valid for 60 days. We reserve the right to reconsider our offer.

Plan implementation begins.

Upon approval of the case, an implementation conference call is scheduled to walk through an enrollment timetable with the employer and agent.

Once enrollment begins, individual executive employees will finalize their applications, and policies will be issued.
